

## A MESSAGE FROM DART

May 29, 2025

Dear Valued Dart Customer,

As part of a regular review, Dart is implementing targeted invoice price adjustments of varied percentages effective **July 1, 2025**. Prices will vary by item and may **increase, decrease**, or remain **unchanged**. Most items with increases are price quotes expiring due to no purchases in the last 12 months.

Price increases on items with purchases in the last 12 months are limited to no more than 20%.

Price adjustments apply to **all orders placed on or after July 1, 2025**. Orders placed before July 1, 2025, will be at pre-adjustment prices when calling for immediate shipment. Contracted pricing is not affected by this update but may change at next renewal.

Please contact your Dart Sales Representative if you have questions or are interested in a quote for new business.

Thank you for adjusting your records and for your continued support.

Dart Container Corporation
