ENJAY DISTRIBUTION PARTNERS

Over the past number of months, North American Board and Linerboard Mills have announced price increases on raw materials. These increases combined with escalating costs of fuel, transportation, adhesive, wages, as well as general inflationary factors all have a major impact on the products we manufacture.

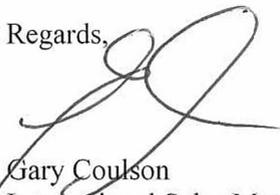

Please note that all orders Shipped after Sept 1, 2025 will be subject to a 6% increase.

Please review your needs and place your orders accordingly. We recommend getting ALL orders into our Order Desk prior to AUG 15th to ensure we meet the Shipping Deadline of SEPT 1, 2025.

We understand this is a very busy time period in the bakery industry and understand the challenges. This letter provides approximately 6 weeks notice – to place orders.

As we enter our 43rd year in business, we understand that these are difficult times for many businesses in this environment. We appreciate your support and please understand, that your business is very important to us.

Regards,

Gary Coulson
