

January 15, 2026

To Our Valued Customers,

Our resin suppliers have informed us a January increase will be implemented. The reason for the increase is due to scheduled shutdowns maintenance and strong global demand for material.

Due to the resin increase, K Pack will implement an increase of **5%** on all stretch film products with all new orders placed on **February 2nd, 2026**.

All orders must call for immediate delivery or will call. Based on current lead times and resin availability, K Pack can only accept a limited number of new orders and reserves the right to accept or decline any order for any reason.

We will work closely with you to manage the impact of these price adjustments and keep you abreast of changing market conditions. Please contact your sales representative if you have any questions or concerns regarding the applicable price increase and or product availability.

We appreciate your business and the opportunity to serve your packaging requirements.

Sincerely,

Sec Ninh Ho
Executive Vice President
