Dear Valued Customer,

We truly appreciate your continued business and understanding in this matter.

Due to sustained increases in fuel and transportation costs, along with ongoing volatility in raw material pricing, we will be implementing a 5% price increase on our products, effective 5/25/2026 .

We have done our best to absorb these rising costs for as long as possible. However, the continued pressure from freight and supply expenses has made this adjustment necessary to maintain the level of service and reliability you expect from us. Every day we receive an increase letter from Freight companies or raw materials.

That said, we want to be clear-should fuel and raw material costs stabilize or decrease, we are committed to adjusting our pricing accordingly. Our goal is to remain fair and transparent while continuing to support your business long-term.

If you have any questions or would like to review your account, please don't hesitate to reach out.

Thank you again for your partnership and understanding.

Sincerely,
