Price Change Announcement

Effective May 1, 2026

Dear Valued Customer,

We are writing to inform you of an upcoming pricing adjustment impacting all product categories.

Due to ongoing global instability and recent war escalations, we are experiencing significant cost pressures across multiple areas of our supply chain. Rising crude oil prices have directly impacted resin and polymer costs, while continued volatility in energy markets, transportation, and raw material availability has further strained production.

As a result of these combined factors, we will be implementing the following price increases, effective May 1.

Gloves	Up to 20%
Plastic Products	Up to 15%
All Other Products	3%

We have worked diligently to mitigate these impacts wherever possible; however, the speed and magnitude of these cost increases make this adjustment necessary to ensure continued supply reliability and product quality.

Your ACR sales representative will be reaching out shortly with updated pricing details specific to your items. In the meantime, please do not hesitate to contact your representative with any questions or to discuss your specific needs.

We appreciate your continued partnership and understanding as we navigate these challenging market conditions together.

Sincerely,

Brandon Clairmont
Chief Commercial Officer, ACR
