

To Our Valued Customers,

Re: Price Adjustment Effective July 1, 2026

We are writing to inform you of an upcoming price adjustment on our products.

Over the past two months, we have seen significant increases in ocean freight rates and a further increase in raw material costs. Rising global oil prices and ongoing instability in the Middle East have driven carriers to raise shipping rates, and these increases show no sign of slowing.

We have absorbed these rising costs for as long as possible. However, given the sustained nature of the increases, we are no longer able to do so without an adjustment. Effective July 1, 2026, prices will increase by 20%.

Please know this decision was not made lightly. We remain committed to providing you with quality products and dependable service, and we will continue to monitor market conditions closely. As ocean freight rates come back down, we will adjust pricing accordingly.

We sincerely appreciate your continued partnership and understanding. Please don't hesitate to reach out with any questions.

Sincerely,

Sandra He
Head of Business Development
