

June 26, 2026

Dear Valued Dart Customer,

Dart is implementing **targeted invoice price increase on select products effective August 1, 2026.**

Please refer to the attached price list for all affected products. Please note that this document will include all changes effective on August 1, including those previously communicated and not part of this increase.

This price increase applies to **all orders placed on or after August 1, 2026.** Orders placed before August 1, 2026, for immediate shipment and within normal purchasing levels will be invoiced at pre-increase prices. Orders exceeding normal purchasing levels or placed on or after August 1 will reflect updated pricing. Contracted pricing is not affected by this update but may change at the next renewal.

Please contact your Dart Sales Representative if you have questions or are interested in a quote for new business.

Thank you for adjusting your records and for your continued support.
