RE: Price Increase Announcement

While we continue to work closely with our supply partners to mitigate cost pressures, ongoing price escalation in paperboard raw materials has significantly impacted our manufacturing costs. These sustained increases in raw material markets necessitate a price adjustment across select product lines.

Price Adjustment Details

- **All Stock and Custom Products (SBS & UUK Substrates): 6%**

Please refer to pages 2–4 of this notice for the list of specific stock items impacted. **This 6% increase will apply to all orders delivering on or after September 13, 2026, regardless of when the order was placed.**

To ensure fair availability and maintain consistent service levels for all customers, we kindly ask that you maintain your typical ordering patterns. We will be unable to accept pre-increase buy-in orders.

- **Stock Items:** Your updated pricing will be sent via email from your Account Manager over the coming weeks.
- **Custom Items / Accounts:** Your SCT representative will reach out directly to review your specific account details and updated pricing.

We are deeply grateful for your continued partnership and loyalty. Should you have any questions, please do not hesitate to contact your local Account Manager. Thank you for your business, and rest assured that SCT remains fully dedicated to active cost containment on your behalf.

Sincerely,

Ross Farren
Senior Director of Sales
