October 6, 2026

Dear customer,

Due to a very tight supply situation with paper across the country, higher than expected demand and rising input costs, PCA has announced a Linerboard and Medium price increase. As a result, we raised finished box prices 14% with shipments effective October 18, 2026.

PCA Miami understands the pressure that increases have on your business. We continually strive to keep our products as competitive as possible. For decades, PCA Miami has been committed to delivering the best quality and service in the corrugated industry.

We depend on your business and look forward to continue serving your packaging needs.

Sincerely,

PCA Miami
