September 14th, 2026

RE: October 15th Price Increase Notification

Dear Valued Customer,

Throughout 2026, ACS has taken deliberate and proactive measures to mitigate the impact of rising costs and minimize the effect on our customers. Despite these efforts, continued increases in key cost drivers, such as raw materials, diesel, unfavorable currency exchange rates, and freight, have created high levels of pressure on our business.

As a result, a market-wide pricing adjustment has become necessary.

Effective October 15th, 2026, a 3% price increase will apply to all new orders **placed**. Orders placed before this date will be at current pricing; large buy-in orders **will not** be allowed.

Please note that our Proof of Delivery contracts and bids are not renewed automatically. If you require more than 30 days' notice of a price increase, submit your contract renewal request well in advance of the contract expiration date. Before requesting renewal, please confirm that sales activity exists under the contract, so we do not renew unused agreements.

We greatly appreciate your business, your understanding and continued partnership.

Sincerely,

Robert Sophie
Vice President
ACS Cleaning Products Group
