

Label Express Limited

Your perfect partners
for
Smart Seal Labelling

The Sustainable Option

Smart Seal Labelling

The Sustainable Option

- Retailers are increasingly demanding a sustainable alternative to single use cellophane bags for their greeting card displays
- Smart seal labels are the innovative solution!
- Neatly holds both card and envelope together!
- Extensive trialing, testing and research has led to Woodmansterne Publications choosing Label Express as their supplier of choice for all their Smart Seal labelling needs.
- Different material and adhesive combinations were tested and assessed which can now be offered to the wider Greeting Card manufacturing industry
- With all applications differing e.g. card stock, sizing, labelling equipment and display set ups, it is recommended that full testing is completed prior to production orders
- Both standard and premium label stocks are available
- Lead times are dependant on choice of material stock

Label Express - Customer service

- Customer focused business
