10	Jeep Grand Cherokee	2024	0.34%	34,245	115	SUV

*The minimum threshold for the Top 10 Most Stolen Vehicles in 2024 – Ranking by Theft Frequency lists is 50 thefts per make/model. 'Most Often Stolen Model Year' is based on a threshold of a minimum of 10 thefts. Theft frequency is based on the '# of Insured Vehicles' of a particular make/model, compared to the '# of Thefts' for that same vehicle make/model. For example, of the 6,551 Ford F250 Series insured in 2024, 67 were stolen, which is a theft rate/frequency of 1.02%. Some vehicle models of the same make and type have been grouped together as a series where similarities are present in the vehicle's characteristics to capture trends in auto theft.
