<input type="checkbox"/>	All withdrawal periods have been observed for all veterinary medicines and any other treatments administered to the animals on this holding and previous holdings (including any medicated feed, any abnormalities in the animals and any restrictions in place for health purposes).
<input type="checkbox"/>	No Critically Important Antibiotics (CIA's) Quinolones, 3rd/4th generation Cephalosporins or Colistin have been administered to these animals on this holding.
<input type="checkbox"/>	No animals in this consignment have been produced using cloning and/or genetic modification through transgenic methods.

Ref:AW-FRM-012	Version: 03	Issue Date: 14.01.26	Issued By: B. Rogers
Approved by:	Liz Rees	Reason for change: Change to animal health and treatments	

Please list all veterinary medicines and other treatments including medicated feed administered within the last 28 days.

Name of Medicine	Date of Administration	Withdrawal Period
Information about animal(s) believed to be suffering from a disease or condition that might affect the safety of meat derived from it/them.		
Identification of animal(s)		
Describe the disease or condition, or diagnosis if a veterinary surgeon has examined the animal(s)		

Welsh PGI Declaration

I confirm that animals have been born, reared & finished within Wales. During their lifetime of the lambs, they have been extensively reared and fed predominately on grass. Lambs are no more than 12 months of age and have not bred.

West Country PGI Declaration

I confirm that animals have been born, reared & finished within the West Country Region comprising of the six counties of Cornwall, Devon, Dorset, Gloucestershire, Somerset & Wiltshire. During their lifetime of the lambs, they must be fed a minimum of 70% forage-based diet & have received a suitable period of grazing, typically 2 months (supplements may have been fed at weaning & finishing stage & ingredients & purchasing records have been maintained on the animal feeding log). Lambs are no more than 12 months of age.

Organic Declaration

I confirm and certify that the animals supplied as detailed above fully comply with the assigned Organic Certification requirements and have not been treated with Organophosphates (OP).

Organic Licence Number:

Expiry Date:

___ / ___ / ____

It is the responsibility of the producer to ensure all lambs are correctly identified with official tags and they correspond with the relevant documentation provided. I understand that farm assurance details may be used to check the PGI eligibility of the farm.

Keeper's Print Name:

Keeper's Signature:

Delivery Date:

___ / ___ / ____

PLEASE COMPLETE ALL SECTIONS ABOVE & ATTACH TO AML FOR ALL DELIVERIES INTO PILGRIM'S EUROPE.
