

SEQUENTIA

PROJECT SERVICES

CAPABILITY STATEMENT

ABOUT SEQUENTA

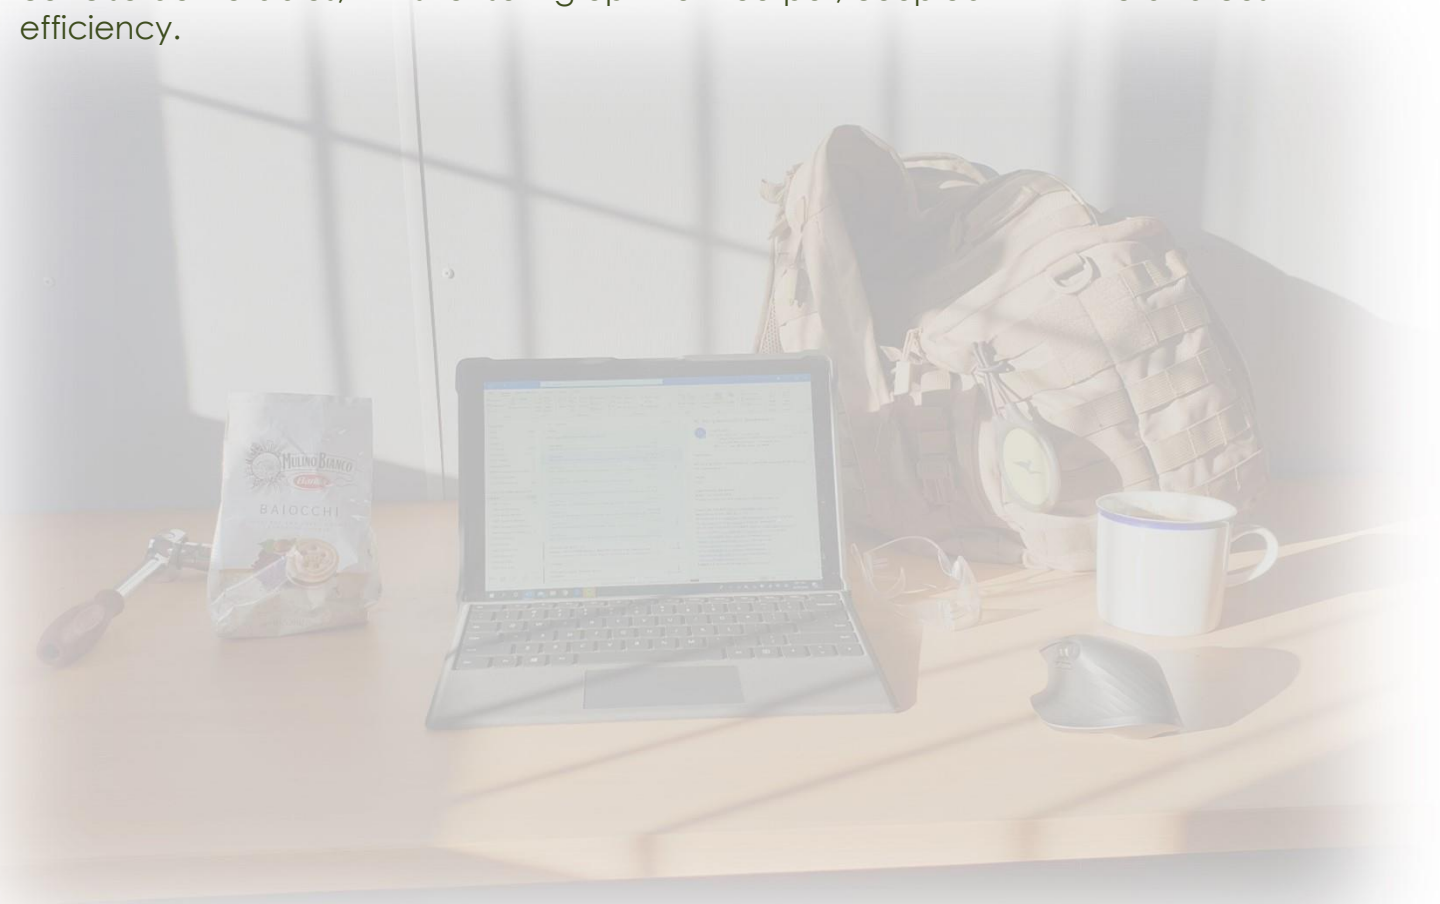

Sequentia is a privately owned and operated company specialising in project services spanning infrastructure and mining project environments. With operations established in South Australia and Western Australia, the team is comprised of a firm base of key resources covering Sequentia's core fields of expertise:

- ⊕ Project Management;
- ⊕ Project Control;
- ⊕ Project Engineering.

Sequentia's leadership team members have over 30 years' combined experience through execution of significant civil, industrial and mining construction projects. They have personally fulfilled front line management and supervision roles in both South and Western Australia, and across a diverse array of industry sectors.

The team is process driven with a strong background in its core disciplines of project management, project control and project engineering and, through its extensive network of personnel and clients, has the ability to expand to the needs of the market.

Sequentia has established protocols and procedures that provide accurate and concise deliverables, whilst ensuring optimum output, coupled with time and cost efficiency.

INDUSTRY SECTORS

Due to significant experience gained by directly managing and overseeing multi discipline, Engineering-Procurement-Construction (EPC) projects for construction of the nation's largest mining operations, the importance of diligent contract and project management is recognised as crucial to the success of any project, no matter the size.

The Sequentia team has broad and demonstratable experience in the following sectors:

Renewable Energy

PV Solar Array Installation
Solar Canopy Construction

Mining and Energy

Process Plant EPC Projects
Oil & Gas Project Delivery
Power Generation

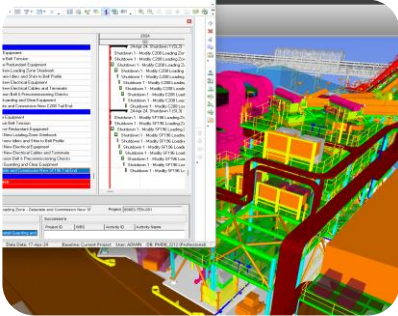

Commercial & Industrial

Defence Project Construction
Infrastructure Projects
Commercial Construction

PROJECT PHASES AND SERVICES

Methodology Development - Design & Constructability Review

Procurement Package Management - Subcontract Scope:
Definition, Tendering & Evaluation - Expediting & Quality Inspections

Commercial Management - Contract Administration
Client Interface - Stakeholder Engagement

COMPANY VALUES

Sequentia prides itself on safe, traceable and complete project delivery. Driven by sincere care for its employees and clients, and the environment in which we operate, all our work is underpinned by three core values:

Safety

Experience where it counts.

Constant assessment of risk, on and off the field.

Adjust the plan to mitigate the risk.

Quality

Detail where it adds value.

Generate familiarity through standardised deliverables.

In-field controls and monitoring.

Sustainability

Responsibility at all times.

Forge strong connections and exceed expectations.

Efficient application of reliable resources.
