

# WHY MOSHIN S. loves yetipay

## What's yetipay like?

Amazing. It's been really easy to sell in this market because they have a complete machine with every feature. Super transparent, fast and easy to understand.

### DESCRIBE THE PAYMENTS LANDSCAPE WITHOUT YETIPAY

#### A lot of competition

I used to work with dojo and Worldpay. I worked with 2-3 companies before yetipay. But after I joined yetipay, I realised there's no card machine like it.

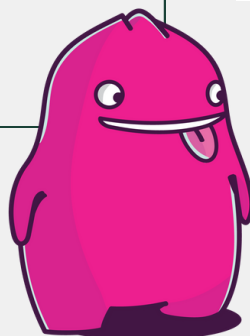

If we compare it with other competitors, their machine is older and they don't have the competent and fully reliable software, and their issues with speed can be kind of problematic.

### THREE WORDS TO DESCRIBE US?

**Reliable**

### HOW DID YOU GET SO SUCCESSFUL?

My manager Ash is very, very, very helpful and super professional. He's helped me with contracts, guided the sale for different customers, the best rates to suit different businesses etc. And he's always available! Even sometimes I've called him on a Saturday and he's been available.
