

# WHY NEIL S. loves yetipay

## What's yetipay like?

Innovative and trying to do things, you know, differently, but in the right way--efficiently and add value to the merchants and to your partners like myself and doing it fairly. You've got a good proposition for merchants and you're willing to to learn.

## THREE WORDS TO DESCRIBE US?

**BIG**  
**PINK**  
**FRIENDLY**

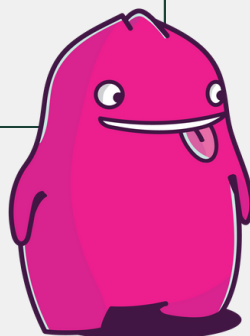

## DESCRIBE THE PAYMENTS LANDSCAPE WITHOUT YETIPAY

Not great to be honest. So I was working with another service provider previously with an ISO for them, and it was pretty disjointed. It took a while to get feedback on queries and then trying to help my clients. I actually took the decision to step away from payments because of this, because it detracted from the relationship I have with my clients.

## WHAT'S THE FUTURE LIKE WITH YETIPAY?

I think it's it's really promising. I'm looking to grow my base, you know, in the knowledge that That base will provide recurring income.
