

AI Builders Lab for Teens:

Prompt, Create & Code Your First App with AI

➤ *A practical, creative and future-ready AI workshop for teens* ➤

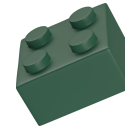

About the Workshop

A hands-on workshop where teens learn AI prompting, creative problem-solving, and vibe coding by building their first simple app prototype in a team.

Students will improve prompting skills, use AI for study and ideas, and build a simple app prototype as a team.

Students will learn responsible AI use, organise ideas clearly, and turn prompts into a simple prototype.

Workshop Highlights

Lego Prompt Challenge

See how better instructions create better results

R-G-C-O Framework

Role, Goal, Context, Output

AI As A Study Partner

Notes, quizzes and study planning

Vibe Coding Project

Build and present a simple prototype

Date:
Saturday,
15th August 2026

Time:
9.00 AM - 5.00 PM

Age Group:
13-17 Years Old

Fee:
Standard: RM169
Buddy: RM149
