

**A continuous, economical, and
hassle-free catering service!**

**An autonomous and 24/7
catering service.**

A secure solution that requires
no qualified personnel or specific

equipment.

**A complete and ultra-
compact solution.**

A connected fridge + a microwave

requiring less than 1m².

**Total freedom of
operation.**

You choose the products and
set your prices to perfectly tailor
the offer to your customers'

expectations.

Easy to use

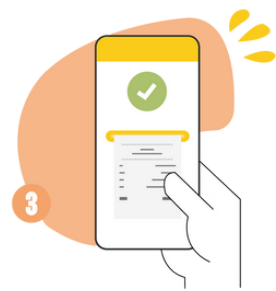

A fast, intuitive, and secure shopping experience:

The connected fridge is unlocked using a payment method.

The customer helps themselves freely, and the fridge detects each product

The customer is charged upon closing the door, and an invoice is generated.
