WHO ARE WE?

WHY CHOOSE CBD SEED EUROPE?

Blue Label, EU-Certified Seeds

All strains **officially registered in the EU Common Catalogue**, ensuring full legal compliance across member states.

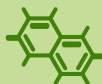

Industrial Cultivation

All our genetics are bred to remain consistently **below the 0.3% THC** legal threshold, ensuring compliance and reliability.

Retail Packs for Home Growers

Designed for **legal retail, e-commerce, and grow shops**, with attractive and convenient formats.

Stable & Professional Genetics

High-germination, field-tested varieties selected for vigor, cannabinoid profile, and consistency.

CBD HEAVEN

Experience the best of both worlds with CBD Heaven, a premium CBD-rich cultivar bursting with flavors of bubblegum and dried mango. Its vibrant purple and pink buds, high resin production, and smooth, terpinolene-dominant finish make it a top choice for growers seeking exceptional yields and early har-vests. Whether indoors or out, CBD Heaven delivers stunning aesthetics, rich aromas, and outstanding performance in every grow.

ARE YOU A FARMER OR AN INDUSTRY GROWER?

Our Blue Label represents EU-certified hemp genetics officially registered in the EU Common Catalogue of Plant Varieties. Each strain is tested, approved, and traceable – ensuring your cultivation meets European standards and stays within the legal THC limit of 0.3%.

With certified seeds, you benefit from:

- **Guaranteed genetics** – stable, uniform, and field-proven results
- **Legal compliance** – full conformity with EU agricultural regulations
- **High germination rate** – over 90% under optimal conditions
- **Optimized performance** – ideal for biomass, CBD extraction, and flower production
