

# Sun & Insect Protection

EXTERNAL VENETIAN BLINDS . SHUTTERS . Pergola AWNINGS . AWNINGS - with arms . Insect Protection . ZIP

**EXTERNAL VENETIAN BLINDS**

Do you want to create unique light accents and a feel good ambience by directing sunlight into your rooms, depending on your preferences and the time of day?

Ideal for both, newbuild and renovation, our systems can be adjusted harmoniously into each and every building's facade and grant flexible daylight utilisation, optimally matched to your requirements.

**SHUTTERS**

Roller shutters and windows are linked like the sun and summer: whether required for sun protection, energy saving or keeping unwanted intruders at bay. Even outside noise or unwelcome insects are kept away by roller shutters. Additionally, they effectively protect from inclement weather.

**AWNINGS**  
**Pergola**

Do you not only expect sun protection and a comfortable shady area outdoors but attach importance to attractive design and weather resistance? In that case one of our high value pergola awnings might be the right choice for you.

The variety of designs, colour schemes and frame colours as well as numerous extras guarantee a maximum of creative possibilities and operating comfort.

Our zip shutters provide an elegant and simple solution. Achieved with sophisticated constructions cold bridges are effectively hindered. Thus, they are also a perfect option for passive and low-energy houses.

They can be incorporated visibly or invisibly into windows or facades and are available in a large variety of colours.

**ZIP**

Every summer the same scene: a multitude of people suffer from pollen allergy and in many places flies and mosquitoes are a plague. We offer a remedy for this. Intelligent insect and pollen protection filters facilitate an entirely pleasant summertime. Regardless of whether it is a door or window frame, fixed or variable, with an opening for your pet - we will find an efficient solution for your home, optically as well as functionally.

**INSECT PROTECTION**

What is more beautiful than enjoying the summer outside on your own terrace? Sometimes direct sunlight can be extremely intense. In this event, being able to simply extend your awnings is a great advantage.

You can select the form and colour of our awnings according to your desires and architectural standards. And your terrace will be transformed into an attractive open space.
