

Non-Sport Prediction Markets dashboard.

All events from Polymarket and Kalshi, now priced and monitored in one place, right alongside our sports prediction markets dashboard.

CORE FEATURES

- Real-time Polymarket and Kalshi prices side by side, with the best price on each side highlighted and bid/ask under every quote
- Historical price chart for every market - 1D, 1W, 1M or full history, both platforms on one axis
- Full order book depth per market: bids, asks and current spread
- One-click links straight into the offered market on Kalshi or Polymarket
- 24-hour turnover and total volume per event, plus market count and resolution date
- Filter to events listed on both platforms, sort by trending or closing soon, search across every category
- Card or table view - the table adds a Δ MID column showing the cross-platform mid-price gap at a glance

PER-MARKET HISTORY, DEPTH AND QUOTES

Fed decisions. Midterm races. Bitcoin thresholds. CPI prints.

The same event trades on two venues at two prices - now you can see both without switching tabs.
