

Your Trusted CDMO Partner

For small molecules & beyond

honourlab.com

Built ^{to} Deliver

Honour is a trusted CDMO partner for global pharma and biotech innovators. We deliver excellence in **Process Development, Manufacturing and Custom Chemical Solutions**. With our core expertise in chemistry, we support product development from the pre-clinical and clinical stages to commercial manufacturing.

END-TO-END SERVICES

- Regulatory starting materials
- Intermediates
- Excipients
- Phosphoramidites
- APIs

CDMO SOLUTIONS

- Route Scouting
- Early Phase
- Mid-to-Late Phase
- Process Safety
- CMC Support

RESEARCH & DEVELOPMENT

Powered by a team of highly qualified and experienced scientists, technicians and engineers, our comprehensive process chemistry solutions support your molecule through every stage of the product lifecycle.

75,000 ft²
Total Built-Up Space

1:4 (100+ Scientists)
Ph.D. : Masters Ratio

Pilot Plant
250L - 750L Reactors

Kilo Lab
10L - 50L Reactors

50
Fume Hoods

Process & Powder Safety Lab
RC1mx, ARC, RSD, etc.

ANALYTICAL CAPABILITIES

- Method Development and Validation
- Stability Studies
- Impurity Profiling & Synthesis
- GTI & Nitrosamine Assessment
- Structural Elucidation
