CASE STUDY

PROLOGIS

LOCATION: BAY AREA, CALIFORNIA **INDUSTRY:** PROPERTY MANAGEMENT

Prologis manages real estate. After leasing industrial spaces to companies, Prologis is responsible for maintaining and managing the property. Nearly 1.1 million people work under a Prologis roof each day. Partnering with LVT is essential to ensuring their customers' space and property remain safe and secure.

CHALLENGES

- Reduce trash dumping to keep properties clean
- Prevent theft of tires from both personal and company vehicles
- Deter gas siphoning at industrial sites
- Protect clients and their property

“Since deploying LVT, no incidents have happened... the presence of the trailer scares people away. I don’t have to do monitoring there—only the units are there—and that does the job.”

— **SACHNA RAJ**

Prologis Director
Bay Area

RESULTS

ELIMINATED NEED for outside clean-up crews and patrolling services

ELIMINATED THEFT of tires and gas

STOPPED DUMPING at properties

70+

DEPLOYED OVER 70 units company-wide
