CAESARS PALACE

LOCATION: LAS VEGAS, NV

INDUSTRY: HOSPITALITY, ENTERTAINMENT, PROPERTY MANAGEMENT

Caesars Palace is an iconic hotel and casino on the Las Vegas Strip, attracting millions of visitors annually. The venue offers world-class performances, a vibrant casino, and dazzling nightlife. With over 40,000 employees and a constant influx of guests, Caesars Palace must prioritize the highest level of security. LVT systems have become an essential component of their security plan.

CHALLENGES

- Monitor hard-to-reach, population-dense areas
- Assist police in crime investigations
- Ensure the safety of their guests and employees
- Organize dozens of cameras throughout their facility

RESULTS

DECREASED overall crime and theft

AIDED POLICE in several homicides and violent crime arrests

SECURED busy areas, preventing crowd issues before they escalate

UNIFIED dozens of cameras into a cohesive system to create seamless security

*“You look at pros and cons when you’re developing a security plan... **with LVT there was absolutely no downside:** deterrence, ability to live view, ability to look from anywhere. **There were only upsides using the LVT Units.**”*

ERIC GOLEBIEWSKI

VP of Security Operations at Caesars Palace
