

## LVT INTEGRATES WITH AXON FUSUS

# THE REAL-TIME OPERATIONS PLATFORM THAT CONNECTS LIVE VIDEO, ALERTS, AND FIELD DATA IN ONE UNIFIED VIEW

This integration delivers real-time situational awareness to both security operators and public safety agencies, helping teams coordinate faster and act with confidence through existing infrastructure.

### BENEFITS FOR LVT CUSTOMERS

Improve response times by securely sharing live video from LVT systems with local law enforcement during active incidents, based on policy and permissions, to enhance communication, coordination, and real-time awareness.

### BENEFITS FOR AXON FUSUS CUSTOMERS

Access your LVT cameras and capabilities directly within the Axon Fusus platform. Operators can view live video, control cameras, and activate authorized deterrent functions without switching systems.

### BENEFITS FOR FIRST RESPONDERS

Integrated LVT Units appear directly within Axon Fusus, allowing real-time operations centers to view live feeds, control cameras, and activate deterrent features—all from the same platform.
