

TOTAL SITE COVERAGE

INTELLIGENCE ACROSS
YOUR BUSINESS

LVT DELIVERS SAFETY, SECURITY, AND ACTIVE INTELLIGENCE FOR THE PHYSICAL WORLD.

By providing rapidly deployable, full-site coverage, we deter threats and make sites intelligent by collecting, interpreting, and acting on real-time data.

UNLOCK FULL-SITE COVERAGE

MOBILE SECURITY UNIT Deploy our solar-powered, cellular- or satellite-connected Live Units virtually anywhere with line of sight to the sky to gain instant visibility and stop bad actors.

GUARDGATE Unlock the deterrence power of a manned gate without the six-figure overhead or the construction headaches.

LIVE UNIT SURROUND Built to be deployed with multiple separate heads on a building, the Live Unit Surround lets you see around corners and stop bad actors with LVT's deterrence capabilities.

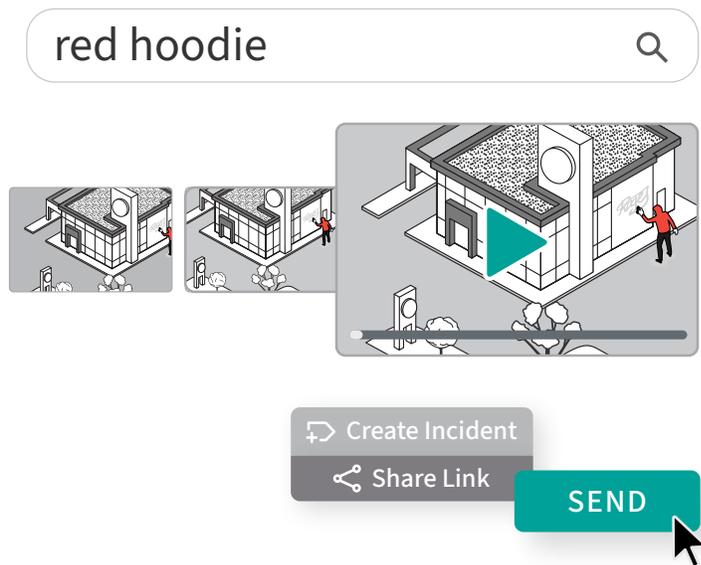

LICENCE PLATE RECOGNITION (LPR) Ensure proactive deterrence and expedite investigations by deploying on an MSU or a pole mount.

TURN VISIBILITY INTO INTELLIGENCE

INDUSTRY-LEADING DETERRENCE Stop crime without human intervention. Enhance crime deterrence with capabilities that create the perception that a live operator is watching, like AI talk down and PT spotlight.

BUILT-IN REPORTING Uplevel your response strategy and determine coverage needs with built-in dashboards for security, operations, and leadership.

POST-INCIDENT RESPONSE Find footage in minutes, not days. Use natural language search to find relevant alert clips from your site after an incident.

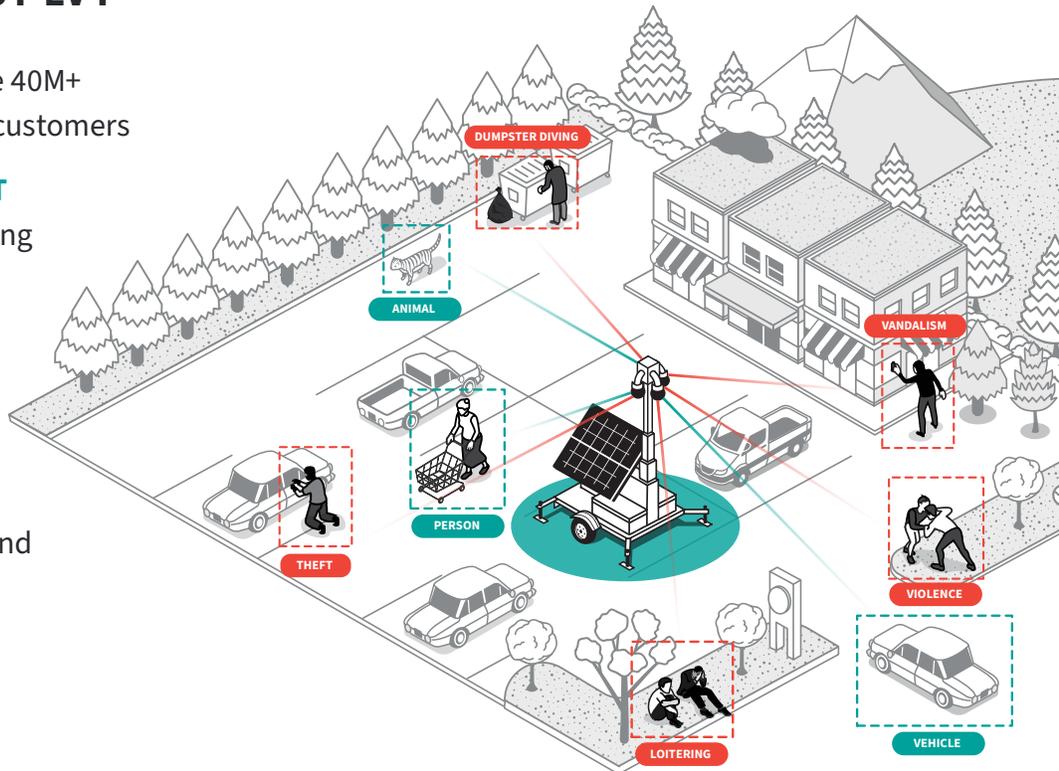

WHY CUSTOMERS TRUST LVT

PROVEN SCALE LVT Units provide 40M+ hours of coverage monthly across customers

INFRASTRUCTURE INDEPENDENT
Rapidly deploy without ever touching your internal network

CRIME REDUCTION Many customers report that crime is eliminated *overnight upon deployment*

STRATEGIC ROI Lower guard spend while unlocking 24/7 site coverage and intelligence
