

# LVT

# LIVE UNIT SURROUND

**COVER YOUR CORNERS—AND YOUR COSTS—  
WITH DISTRIBUTED DETERRENCE.**

Blind spots are a liability your business can't afford. For many sites, the "cost of coverage" often leads to gaps in visibility that invite unnecessary risk.

## **LIVE UNIT SURROUND CHANGES THE COVERAGE**

**EQUATION.** Get full-site protection at the cost of just one mobile surveillance unit without sacrificing a valuable parking spot. Surround is engineered for sites where seeing every angle is as important as being seen. Built to be deployed on the wall or roof of a building, Surround lets you see around corners and stop bad actors with the same LVT deterrence you've come to rely on.

## **BENEFITS**

**SURROUND YOUR SITE** Mount multiple heads on your building to see around corners and eliminate blind spots.

**DETER AND DEFEND** Deploy LVT's signature audio and visual deterrents across your building's exterior to stop bad actors before they act.

**PROTECT YOUR PARKING SPOTS** Limit any disruptions to your operation without consuming an on-site parking space.

**CONFIGURE TO YOUR NEEDS** Flexibly meet your site needs with the option of mounting one or three camera setups to your building's roof or wall.

**UNIFIED VISIBILITY** See what's happening across your property with a mosaic view of your cameras in LVT's VMS.

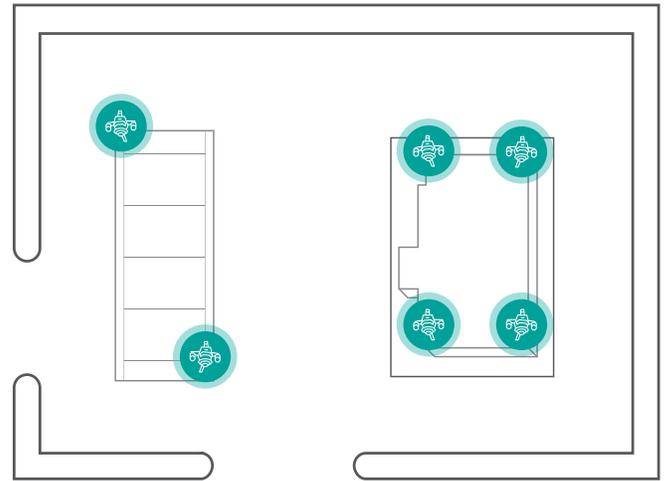

**NON-INVASIVE INSTALL** New parapet mount brings a rapidly deployable non-penetrating option for your roof.

# FEATURES

**CAMERA CONFIGURATION** Each head can be equipped with either one or three cameras, and there is an additional option for a near-range multi-sensor panoramic camera.

**MOUNTING** The system is designed for versatile installation, supporting both wall-mounted and non-penetrating roof-mounted deployments.

**DETERRENCE CAPABILITIES** The unit features configurable strobes, a pan-tilt spotlight, and an integrated speaker to provide automated deterrence capabilities.

## TECHNICAL SPECS

**ARCHITECTURE** Hub-and-spoke system with 1 central power source (120 VAC, 7A max)

**FLEXIBILITY** Distribute heads as far as 328 feet from central hub

**VIDEO STORAGE** 30+ days

**WIND SPEED** Up to 105 mph

**SEE FOR YOURSELF**
