

LVT

INTEGRATIONS CATALOG

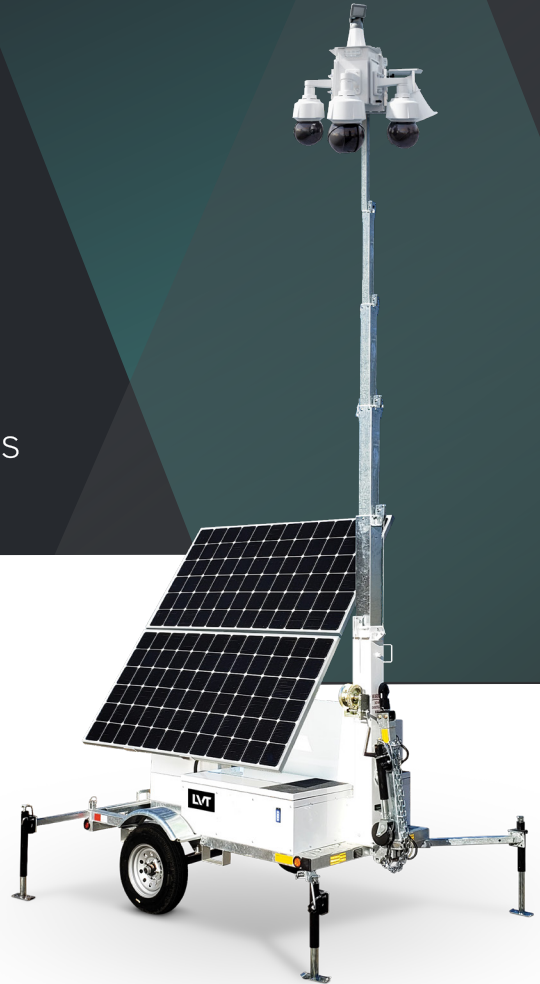

DISCOVER, CONNECT, AND
MANAGE IN ONE PLACE.

Genetec immix AXON Fusus

Your security ecosystem involves multiple moving pieces and technology. That's why we partnered with industry-leading platforms to create the LVT Integrations Catalog which puts every available LVT integration in one place. This allows you to seamlessly integrate LVT as part of your security ecosystem instead of changing workflows and using duplicate platforms.

BENEFITS

- » **ACTIVATE ON YOUR TERMS:** Connect and configure integrations yourself with a standardized setup flow. No LVT Support required.
- » **WORK WITH WHAT YOU HAVE:** LVT fits into your existing platform stack to reduce switching costs and keep your workflows intact.
- » **STAY IN CONTROL:** Monitor connection status, edit configurations, or deactivate integrations anytime.
- » **NO NEW CONTRACTS:** The catalog operates within your existing LVT Account.
- » **SECURE BY DESIGN:** Standardized authentication and scoping controls ensure every connection is auditable and IT-ready.
- » **AVAILABLE INTEGRATIONS:** We're continuously adding new integrations. Some of the platforms we integrate with are Genetec, Immix, and Fusus.

Connect LVT to the platforms already
running your operation on your timeline.
