

SOS International chapter institutions

We design, support and catalyze **action-oriented sustainability coalitions** on campus and beyond, supporting a global network of **inclusive structures** for transformative education...

Through catalyzing innovative learning systems in the institution, we provide genuine **green skills pathways** via the whole-institution approach.

SOS International chapters nurture **systems-thinking and global citizenship** competences.

Drawing upon diverse ways of learning and knowing to co-create **knowledge, skills and value-sets** for human and planetary health and wellbeing.

STUDENTS
ORGANIZING FOR
SUSTAINABILITY
INTERNATIONAL

Our **chapter membership package** is designed to support, connect and amplify your work across our global network.

Does your institution have an existing staff-student collaborative structure for sustainability, an environment club or ambitions to grow activity in the **engagement and collective governance space**?

SOS chapter membership provides:

- In-person or virtual training, development and coaching for your team.
- Annual in-person global summit with free and discounted delegate rates for chapter institutions.
- Membership of our global network of similar and like-minded initiatives in higher education with monthly online member networking webinars.
- Opportunities for student representation in high level events and conferences within the climate, education and social justice space.

Chapter membership has a **solidarity-based** pricing structure, scaled according to level of support, type of institution, geographical location.
