

Linus Digital Finance AG is changing its name to Linus Finance AG

Berlin, September 2, 2026 – Linus Digital Finance AG has changed its name to Linus Finance AG, following approval by the Annual General Meeting on July 28, 2026.

With this name change, the company is shifting its strategic focus from its digital retail investment platform to the private debt investment business. LINUS focuses on providing and brokering financing solutions for real estate projects in Germany.

Through the private debt funds and co-investments it manages and advises on, Linus enables institutional, professional, and semi-professional investors to participate in these short- to medium-term investments.

All existing contracts, agreements, and points of contact remain unaffected by the name change. The company's structure and legal form also remain unchanged.
