

EQT CORPORATION

2200 Energy Drive | Canonsburg, PA 15317

P: 844.378.5263 | [www.eqt.com](http://www.eqt.com)

## **Receiving a Payment Under the West Virginia Cotenancy Modernization and Majority Protection Act**

### **Who is EQT?**

EQT is the leading natural gas producer in the United States and develops natural gas resources throughout the Appalachian Basin, including West Virginia. As part of our operations, we work with mineral owners and other interest owners to responsibly develop natural gas resources while complying with applicable federal, state and local laws.

### **Why did EQT need my rights?**

Oil and natural gas are produced from underground formations that extend beneath many separately-owned properties. To efficiently develop these resources, EQT obtains the legal rights necessary to drill and produce natural gas.

### **How did EQT obtain my rights?**

The rights associated with your ownership interest were obtained pursuant to the [West Virginia Cotenancy Modernization and Majority Protection Act](#) ("the Act"). This Act allows development of oil and natural gas interests when the statutory requirements have been met. EQT is using the Act to produce the oil and natural gas underlying the property referenced above.

### **Why am I receiving this payment?**

Based on our records, you own an interest in the oil and natural gas as identified in the check & letter you received. The payment represents the initial compensation attributable to your ownership interest as required by the Act. Future payments may occur, and if they do, you will receive additional correspondence when that happens.

### **What happens now?**

If your mailing address or ownership information changes, please notify us promptly to ensure future correspondence and payments reach you.

If you have additional questions, please contact our Owner Relations team at:
