Subject: Compliance Review

Dear Mr. Cassway,

Upon your request, *Tara Commercial Vehicle Consulting Services, Inc.*, a Florida Corporation, has reviewed the Demountable Concepts cargo system for compliance to the following standards.

- The U.S. Department of Transportation, Federal Motor Carrier Safety Administration Part 393- Parts and Accessories Necessary for Safe operation, subpart 1- protection against shifting and falling Cargo. 393.100 393.102 393.104 393.106 393.114
- The Canadian National Safety Code for Motor Carriers – NSC Standard 10 for Cargo Securement Division 2, 3, 4, 5
- The North American Cargo Securement Standard Part 1, 2.

Along with the above reviews, the completed vehicle was evaluated for compliance with all FMVSS regulations in effect at the time of the study.

Our investigation and study centered on compliance to code in the nature and design of the operating and transport systems. A separate engineering evaluation was conducted by Wartech Engineering, LLC 118 E Michigan Ave #300, Saline, MI 48176. This study centered on structural integrity, focusing on compliance with acceleration, deceleration and longitudinal force compliance of the Demountable Concepts system and all of its manufactured components.

Tara Commercial Vehicle Consulting Services, Inc.

The conclusion of the study by *Tara Commercial Vehicle Consulting Inc.* is that the truck and trailer mounted systems manufactured by Demountable Systems, Inc. meet or exceed all applicable standards of the above listed regulations. Our review was conducted by a review of drawings, engineering data, and actual observation of the systems in real world use by an owner / operator of both a Demountable Systems straight truck application and a trailer mounted system.

Documentation on this review is on file at our Florida office.

Thank you for the opportunity to work with you and your staff.

Sincerely

Robert J. Aquaro
Senior Vice President
