Confuse, disconcert, embarrass imply temporary interference with the clear working of one's mind. To confuse is to produce a general bewilderment: to confuse someone by giving complicated directions. To disconcert is to disturb one's mind by irritation, perplexities, etc. to disconcert someone by asking irrelevant questions. To embarrass is to cause one to be ill at ease or uncomfortable, so that one's usual judgment and presence of mind desert one: to embarrass someone by unexpected rudeness. 4. mortify, shame. 5. disarray, disarrange, disturb. con·fus·a·ble, n. adjective jump to other results difficult to understand; not clear The instructions on the box are very confusing, a confusing situation/experience confusing messages/signals a confusing array of options This is where it all starts to get really confusing. Beginners may find the terminology confusing, confusing for somebody The new signs will be very confusing for tourists. confusing to somebody All this information can be confusing to the user. confusing to do The site is somewhat confusing to navigate. it is confusing (for/to somebody) to do something It would be confusing to have two sets of regulations for a single country. Extra Examples Both teams were wearing the same colours, which made things confusing. I find the government policy extremely confusing. It was all very confusing. She experienced a confusing mixture of emotions. The news bulletins were confusing, giving different versions of what was happening. The signposts are confusing for people who don't know the area. The Home Office's approach to the scheme is a complex web of anecdotes and social commentary, which may be bewildering for some. The government claims it is "effectively" run, but critics argue that it lacks clarity and can lead to wrongful convictions. A large cast of characters is involved in the scheme, including secondary actors who often cause confusion. At its core, however, the brothers are the central figures. Supporters believe the scheme reduces the risk of wrongful conviction, while critics say it fails to provide closure for victims. The term "confuse" has multiple meanings, including causing bewilderment or perplexity, and failing to differentiate between people or things. It can also make something more complex or difficult to understand. In this context, the system's complexity is seen as a major issue. Intrigued by the concept of confusion, we must analyze its usage in various contexts. A new tax code, for instance, may only confuse rather than clarify. The statement issued by the Home Office was highly confusing, while a clear and straightforward message can be much more effective. To further understand this phenomenon, let's explore some words related to confusion, such as "bewilderment," "difficult to follow," and "puzzling." These terms highlight the complexities of human perception and cognition. she saw many people coming into her room, it was like a big storm in there. everything was moving too fast for her to understand. she felt dizzy from seeing so many faces at once and also from being in the air. suddenly things that she thought she knew were not the same anymore. everything looked different and it was all very confusing.
