Some styles are designed for both men and women, and these will be listed together with the male and female sizes displayed one after the other. (Example: 07.5/W09) Other codes indicate specific age ranges: * "K" at the beginning of a size means it's for kids. * "T" means it's for toddlers. * "B" means it's for babies. To ensure you get the right size, follow these easy steps: 1. Measure your feet at the end of the day. 2. Mark the length of your longest toe on a piece of paper and measure from the wall to this mark. 3. Compare your measurements with Billabong's size chart to find the perfect fit. Here are some key sizes for different age groups: ****Women****: XS, S, M, L, XL, Bottom Size ****Men (7-14 years)****: 6, 8, 10, 12, 14, Height and Weight range ****Kids (2-7 years)****: 2T, 4T, 6T, Height and Weight range ****Girls****: XXS, XS, S, M, L, Age, Height, Chest, Waist, Hips, Inseam Please note that the size charts above are specific to Billabong clothing. Sizes are labeled with different letters depending on who they're for: K sizes are for kids, T sizes are for toddlers, B sizes are for babies, and W sizes are for women. If you're not sure about a size, just ask! In some cases, one model might fit both men and women, and we'll show both sizes together, with the unisex size first followed by the women's size (e.g., 07.5/W09 is either a 7.5 for men or a 9 for women). To get your right size, follow these simple steps: measure your feet at the end of the day, mark where your longest toe ends on a piece of paper with one foot slightly touching a wall behind you (you might need help), and then do the same for the other foot. Compare your measurements to our size chart to find the perfect fit!
