===== As a seasoned Date Ariane player, I've found that many online walkthroughs are tailored for older versions of the game. To address this, I'll be sharing my own strategies and tips, starting with the five pre-dinner activities and progressing to the 37 post-dinner options. First, let's focus on preparing Ariane for a night out. Begin by giving her a warm hug, followed by reading her a poem - it's amazing how this can set the tone for a great evening. Next, try moving in closer, then take her to somewhere else. A change of scenery can work wonders. You can also try playing some music or pick a Rock playlist to get things started. As you continue, remember that each decision has its own rewards and consequences. Be cautious with certain actions, like going to the kitchen to order pizza - it may lead to some interesting developments. Here's an alternative route that starts after dinner. You'll find yourself in a more relaxed environment, but still filled with possibilities. Don't be afraid to take risks and try new things - after all, that's what makes life exciting! I'll stop here for now and revisit the game at a later point. If you're feeling stuck, I recommend exploring some alternative paths that have been shared by other players. These 26 paths should cover most of the content available in Date Ariane Remastered. Note: Be sure to save your progress regularly, especially after completing certain sections - it's always better to be safe than sorry. Happy gaming!
