Cuốn sách giúp bạn khám phá cách kết hợp ba thành phần thiết yếu của một trải bài tarot tuyệt vời: hiểu ý nghĩa các lá bài, biết cách sắp xếp chúng, và tin tưởng vào những thông điệp trực quan thường khó thấy trong chúng ta khi đọc. Lookin forward to seein everyone at the meetin tomorrow and discussin our strategiys. Ya know, ya cant ignore the power of tarot, its like, super useful for findin out things abaat life and destiny or somethin. Today I wanna talk about Deans Ultimate Guide to Tarot, its a great starter book for newbies and even old pros who wanna refresh their skills. It provides some history on tarot and then delves into the Rider-Waite deck, explainin how each card works and what it means. The book is filled with awesome pics of each card, and its like, totally beautifully done. Its a great refrence tool and can be super helpful for anyone wanna learn more about tarot. But keep in mind its not like, all-inclusive or somethin, so if ya need everythin there is to know, look elsewhere. One thing I liked about this book is the way it explains how to read each card and use them in spreads. Its like, really helpful for newbies, but even experienced readers can learn a thing or two. And theres some neat info on astrologie, numerology and kabbalah too! But if ya lookin for more depth, this book might not be the best fit. Still, its a great starter book and I'd defenitly recommend it to anyone curious about tarot. I also saw another review sayin this is a good book for beginners, but can be useful for intermediates too. Its like, really clear and easy to understand, and the author provides some nice little history lessons about each card. Anyway, thats my 2 cents on Deans Ultimate Guide to Tarot. If ya wanna learn more about tarot, its definitely worth checkin out!this is a great guide for anyone interested in the art of tarot reading, it provides in-depth descriptions of card meanings and different scenarios and situations that can occur, it is very well done and beautifully illustrated, i would highly recommend it, it is a must-have reference book for any tarot enthusiast, the author does a great job of explaining complex concepts in an easy-to-understand way.

===== The Ultimate Guide to Tarot Falls Short of Promise I highly recommend purchasing a Universal Waite Tarot deck to study the cards in comfort without having to hold a book. 2019-books-finished arts-crafts-and-linguistics instructional September 28, 2024 Liz Dean's The Ultimate Guide to Tarot sets itself up as a comprehensive guide for beginners, but its superficial introduction barely scratches the surface. While the book tries to position itself as a definitive resource, it ends up feeling like a collection of overly simplistic definitions and generic explanations that lack depth. If you're looking for a quick overview of card meanings, you might find it useful, but as an "ultimate guide," it's far from satisfying. The biggest flaw is its formulaic approach. Each card is presented with the same cookie-cutter format—basic keywords and a brief description that don't go beyond the most obvious interpretations. This might be helpful for someone completely unfamiliar with Tarot, but for anyone looking to build a deeper connection with the cards, Dean's book doesn't offer much to work with. There's little discussion of context, nuance, or how to apply these meanings in a reading, making it feel more like a reference list than a teaching tool. The inclusion of spreads feels lackluster. The explanations are rushed, and there's minimal guidance on how to actually use the spreads to uncover more complex layers of meaning. The book seems more interested in looking comprehensive than actually being comprehensive, which leads to a lot of missed opportunities. If you're serious about learning Tarot, I'd recommend looking elsewhere for a resource that respects the intricacies of the cards rather than glossing over them. January 15, 2021Description:Discover the facts, myth, history, and mystery of the spiritual art of Tarot-reading. Whether you want to learn to read the cards or deepen your Tarot interpretation skills, The Ultimate Guide to Tarot honors the deep heritage of Tarot, while guiding you through practical techniques. Tarot expert Liz Dean offers an overview to all of the important elements of each card from symbols, to links with astrology, kabbala and numerology. The Ultimate Guide to Tarot also includes all the classic tarot spreads - Celtic Cross, Horseshoe, Star and Astrological Year Ahead - plus, a mini-layout to try for each of the 22 major cards. Learn how to combine the three essential ingredients of a great tarot reading: knowing the meaning of the cards, how to lay them out, and trusting the intuitive messages the images often spark within us during a reading. This synthesis is the true magic of tarot. With the authority and confidence this book offers, The Ultimate Guide to Tarot will be the must-have companion for beginner readers and tarot aficionados alike. Contents:Introducing the Tarot --How to begin --Card layouts --Card interpretations: the major arcana --Card interpretations: the minor arcana --Afterword --Appendices.Subjects:TarotReactions:This book follows "Universal Rider Waite" deck, a more colorful but very close to the original "Rider Waite" deck. This book helps you view the Tarot through the lens of numerology, astrology, kabbalah, the 7 chakras, and the classic elements: Fire, Earth, Air and Water. Useful for quick references. 4 stars! August 1, 2023Exceptional resource for giving tarot readings I found this book at my local library with ar armful of others that I took out to learn how to read tarot cards. This one was the best with intricate illustrations and insightful content. I was debating whether to buy the softcover because it was only 3 dollars more than the kindle edition for a nice large size manual for easy reading in bed but after thinking about it, I purchased the kindle addition which makes it so much more versatile to just put on my phone to refer back to as I am doing a reading for myself. Everything the soft cover has in a portable take anywhere format. And because I can set the font size on my kindle it's actually easier on my eyes. I would suggest lowering the price on the kindle edition to below \$10 more like \$5.99 to make it a financially feasible purchase for people who are struggling with inflation yet would like to learn tarot if it were more affordable.May 10, 2019I decided to put down my oracle cards and dive head first into understanding tarot, RWS in particular. Within a couple of months, I had a mountain of tarot books to cross reference and started my own journal where I meticulously went through each book and jotted down the things that resonated with me, things that made sense and seemed simple enough to remember as touchstones. After finding this gem of a book, I wish I started here. Its easy to read, clear with direction and enjoyable to flip through. There is a traditional history section to the majorThis excellent Tarot guide by Dean is a must-have for both beginners and experienced readers, offering a straightforward approach to understanding the cards. The author skillfully weaves through various explanations, making it easy to grasp the basics. With this book, I have become more confident in my practice, and it serves as a reliable reference point. The book's colorful illustrations and comprehensive information on each card make it an engaging read.
