AUX

INVERTER DUCTED SYSTEM

Wide Temperature Range

Even in extreme temperatures, the system maintains consistent performance to help provide indoor comfort year-round. Temperature range: -22° to 125° F

Energy Saving

Inverter technology helps save you money. DC Inverter adjusts frequency according to the temperature difference to save energy

Easy to Service

Easy-to-remove fan assembly, control board, coil and filter for faster maintenance

Easy Installation

Vertical, horizontal and inverted mounting options to meet most installation requirements.

Max ESP up to 1.0 WC

Superior airflow for efficient distribution through complex ductwork

Dual Communication

Supports RS485 and 24V communication.
Works with AUX products and and thermostats or other third party products.

Full Lineup from 1.5 - 5 Tons
Regular and Extreme Series
Up to SEER2 19.2
