This year the school has made huge progress from last year's issues with staff and other problems. I am very happy to see such a big difference in this new year 2023/2024. The staff is always on top of things, if I have an issue it's usually resolved quickly and with care. Ms Lennard is so nice and understands being a mom. She is very good at what she does and we feel lucky to have her as part of our school team. Dr Hannett has done a lot for us and our child and she always puts the kids first. Ms Tari goes above and beyond for the students and their parents, she will do anything to help a child or parent. The office ladies like Ms Blackman and Ms De Jesus are so sweet they always smile when I see them and are happy to chat with parents or kids. Coach Ellis is amazing with the kids too! ===== Note: This rewritten text maintains the original meaning but uses more informal language, introducing some grammatical errors and simplified vocabulary to mimic non-native speech. Dedication Ceremony Honors Legendary Educator Dorothy York ===== Dorothy York, a trailblazing educator who spent over four decades in the Hillsborough County public school system, had her namesake school renamed in her honor yesterday. The York Innovation Academy, a magnet school with an International Baccalaureate program and STEAM focus, was officially dedicated during a ceremony that brought together students, staff, family members, and community leaders. The school board unanimously voted to name the school after York, who taught most of her career in Hillsborough and became a beloved figure in the community. "This school is named after a wonderful woman who dedicated her life to students for more than 45 years," said Henry "Shake" Washington, a former school principal and current school board member. The ceremony featured performances from students, including music performances by the York seventh-grade band and soloists Eli Radefbaugh and Ma'at Scott. Students also recited poems and presented colors from their JROTC unit. The dedication of the York Innovation Academy was made possible through a \$5,000 college scholarship, which will be awarded annually to a York student headed to college. The school's principal, Catherine "Missy" Lennard, announced the scholarship during the ceremony. York Innovation Academy is a unique magnet school that offers an STEAM-focused education, blending science, technology, engineering, and mathematics with the arts. The school serves students in pre-kindergarten through grade 8 and has a nautical theme, with its mascot being the Admirals. The dedication of the York Innovation Academy was a celebration of York's legacy as an educator and community leader. "Miss York treated strangers like friends, and she treated friends like family," said Henry Washington, who knew York from her days as a student at Middleton High and later as a friend of his wife. Friends and family, including grandkids and great-grandkids, stood on stage for photos. Liz York-Cohen held her mom's picture. In a past chat, York-Cohen talked about her work at the school, saying it's "a special spot" where "awesome stuff happens." She mentioned the staff gives "top-notch lessons daily, led by Missy Lennard." "I'm always around," York-Cohen said. "I'm part of the team when stuff goes down at the school. That's key, to return and chat with the kids, because it's not just my mom's name on the building. It's her tale and her journey." journey.
