Given text is about the book series "Driven" by author K. Bromberg which revolves around the story of Rylee Thomas and Colton Donovan, two strong-willed individuals who engage in a tumultuous relationship filled with passion and conflict, as they navigate their feelings for each other amidst themes of redemption, acceptance, and family dynamics. The first two novels in K. Bromberg's Driven series have received mixed reviews. While fans love the books for their fast-paced, thrilling storylines and memorable characters, critics have panned them for issues like problematic male behavior and inconsistent female protagonist development. The protagonists, Rylee and Colton, are polar opposites who find themselves drawn to each other despite their differences. However, their relationship is complicated by their individual struggles with control and intimacy. In "Driven", the first book, readers have praised Bromberg's take on the good girl/bad boy trope, but critics have criticized Colton's handling of Rylee and her inconsistent behavior throughout the story. The second book, "Fueled", has received similar praise from fans for its ability to stand alone despite being a sequel, with many readers enjoying it without having read the first book. However, critics have still noted issues with character development and plot consistency. Overall, the Driven series seems to be an acquired taste, with fans enthusiastically embracing its flaws while critics remain unimpressed. Driven (2018) is a movie about a young woman with a difficult past, who falls in love with a reckless race car driver. The film stays true to its source material and captures the essence of its characters.
