NNG iGO goes beyond pure navigation to offer a modular location-based platform designed to scale flexibly to your mobility needs. Optimized for electric vehicles and built from the ground up to adapt to changing connectivity use-cases, NNG iGO can be easily customized to create branded driver experiences, from the offline to the fully connected. iGO Navigasyon, doğumda denizde, yeni bir ülkede veya kıtadan büyük bir yerinde, doğru yönlendirmeye yönelik etkili bir kılavuz gerektiren daha fazla keşif yöntemi tasarlayan bir uygulamadır. Birinci sınıf tam hizmet uygulaması çok güzel görülmeye sahiptir, hız tahmini hızlandırır, gerekli depolama ortamını azaltır ve çevrimdışı olarak potansiyel özellikler sunar, seyahat ettiğiniz dünyayı açılmak için mükemmel bir şekilde dönüştürülür. Our motives are not really to harm Microsoft software company but to give the probability to those who can not really spend for any piece of software program out now here. At NNG, we believe in a connected future where personal digital ecosystems blend seamlessly with automotive technology to provide exceptional user experiences. Our capabilities include flexibility and incredible expertise, insight and innovation, allowing us to deliver solutions that help to connect people and communities and make transportation smarter, safer, and more fulfilling for everyone. We can create fully customized, integrated solutions or you can bring our expertise in-house with dedicated tools and strategic development teams. We work closely with market leaders throughout the automotive ecosystem. Yes, we are the ultimate automotive software house. 9,324 followers 1w Getting #RV navigation right is harder than it looks. The RV journey should be about freedom, not frustration. But generic maps create anxiety over low bridges and the constant hunt for propane. This year at CARAVAN SALON Düsseldorf - the world's No.1 trade fair for mobile travel, the key topic is navigation that truly supports the adventure. We'll be there to share how we move beyond the map with an embedded, reliable co-pilot. Built on:  True RV-Safe Routing  Relevant, Essential POIs  100% Offline Functionality  Seamless Brand Integration Want to see how it works in practice? Meet our team in Düsseldorf. ➡ Learn more here: 9,324 followers 2w Two wheels. One mission. India's two-wheeler market is transforming and connected navigation is becoming essential. Together with Genesys International Corporation Ltd., we've built an exclusive, long-term partnership to deliver production-ready embedded connected mobility solutions designed specifically for India's unique riding conditions. After 1.5 years of close collaboration on technology and strategy, we've reached a key milestone: a Linux-based navigation proof-of-concept for a leading global Tier-1 supplier combining: • Genesys' deeply localized map content. • NNG's globally trusted navigation engine and connected vehicle solutions. • Automotive-grade reliability with offline-first performance and OTA upgrades This is just the beginning; all navigation solutions in this segment will be developed exclusively by Genesys International Corporation Ltd and NNG LLC, ensuring a future-ready, dedicated approach across the entire navigation value chain in India. Read the full announcement: 9,324 followers 1mo Not just maps. A mission. Mentoring future mappers doesn't end in class. It's a multi-stop route: from spark to street to real impact. Here's how we mapped it. Stop #1 - Spark At ELTE's national "S.T.E.G." cartography competition, we joined as sponsor and jury. Our experts guided 7th-8th graders through the fundamentals of automotive navigation and an exciting drone obstacle-course, then joined the panel selecting the most promising young mapper. Stop #2 - Test What happens when a kid leaves the desk and hits the field? Zétény, the winner, joined our crew for a day of real-world mapping. Real tools. Real streets. Real curiosity. Stop #3 - Impact Thanks to this field test Tatabánya has become the very first major Hungarian city to be completely mapped on Mapillary with ~90% of the data coming from our team. This is how future mappers are made. Out there. In motion. Thanks to Eötvös Loránd University Faculty of Informatics ELTE IK and to every kid who dares to dream in coordinates. 9,324 followers 2mo Edited  The May #OSMMeetup at NNG: Where Data, Community, and Ideas Come Together We had the pleasure of once again hosting the Hungarian OpenStreetMap meetup at our Budapest office, and what an inspiring evening it was! \* From curious newcomers to seasoned mappers, the community gathered to exchange ideas, tackle real-world mapping challenges, and spark conversation across multiple domains. This time, we looked into: Balázs Ur led an interactive discussion on tagging standards—maxspeed:type vs. source:maxspeed. More than syntax, it was about the value of community consensus. András Kolesár shared a fascinating case study on mapping EV charging stations—complete with lessons for EV users, ethical hackers, and embedded system engineers alike. Zsolt Erő introduced OpenFreeMap, a free, public OSM-based map designed for everyone. As a company deeply involved in navigation and mapping, we're proud to support events like these. Creating space for knowledge sharing, open collaboration, and mapping innovation benefits not only our team but the wider OSM and tech communities as well. Thank you to all the speakers, contributors, and attendees who made this evening so valuable, and we hope to see even more of you at the next meetup! #NNG #OpenStreetMap #CommunityMapping #OSMMeetup #TechForGood #MapInnovation #BudapestTech #SupportOpenData #CommunityEngagement 9,324 followers 2mo NNG and GlobeTech Deliver Thailand Road Network for NDS.Live Evaluation With NNG's expertise in NDS.Live, sample map data from GlobeTech Thailand is now available through the NNG Maps Partner Evaluation Service on the NDS.Live Developer Portal.  This NDS.Live-compliant map service allows developers, integrators, and solution providers worldwide to quickly evaluate comprehensive road data from the Bangkok area.  GlobeTech is a leading location content provider in Southeast Asia, with over 20 years of experience in navigation systems, GIS, and digital mapping.  KEY BENEFITS: High-quality Thailand road data ready for NDS.Live evaluation Instant access via the NDS.Live Developer Portal with no legal hurdles Supports navigation, ADAS, and visualization use cases Enabled by NNG's deep NDS.Live expertise "This partnership with NNG makes our data directly accessible to the global mobility ecosystem," said a GlobeTech Thailand spokesperson. "NNG is proud to showcase GlobeTech's regional expertise through NDS.Live." said Martin Pfeifle, CTO of NNG. HOW TO ACCESS: Explore GlobeTech's Thailand sample map service on the NDS.Live Developer Portal, request an API key, and start testing today. For more details, read the full press release here: #NNG #GlobeTech #NDSLive #MapData #Mobility #ADAS #GIS #Bangkok #Navigation 9,324 followers 3mo Edited Basarsoft's Turkey Map Data Now Available on NDS.Live via NNG We're pleased to announce that Basarsoft's sample map data for Turkey is now available through the NNG Maps Partner Evaluation Service on the NDS.Live Developer Portal. This NDS.Live-compliant sample map service lets developers, testers, and solution providers across the NDS community, including both members and registered evaluators, explore Turkish road data in minutes—no commercial contracts or NDAs required. What's included: Regional Turkey road data ready for NDS.Live evaluation Streamlined access via the NDS.Live Developer Portal and Map Viewer Ideal for navigation, ADAS, and map visualization use cases NNG's deep competency in NDS.Live integration made this launch possible, connecting Basarsoft's trusted regional content with a global audience through a standardized, developer-friendly format. "We're proud to see our map data showcased via NNG and NDS.Live, helping us connect with the global mobility ecosystem," said Alim Küçükpehlivan, CEO of Basarsoft. "This is another step in making local content excellence more accessible to the global NDS community," said Martin Pfeifle, CTO of NNG. Getting started is simple: Explore Basarsoft's sample map service on the NDS.Live Developer Portal, request an API key, and start testing today. This new release will also be highlighted at the upcoming NDS Public Conference in Tokyo on June 4. #NNG #Basarsoft #NDSLive #NavigationData #TurkeyMapData #SmartMobility #MapServices #ADAS #ConnectedCar #OpenEcosystem #DeveloperTools #NNGMaps #EvaluationServices 9,324 followers 3mo Mapping Martfű: Spa Town, Industrial Heritage, and Now, Updated for Navigation  Martfű may be a small town on the map, but it carries a remarkable mix of history, architecture, and cultural identity. Originally planned before WWII as a model city to serve a shoe factory, Martfű's layout still reflects the principles of modernist urban design, structured, spacious, and built for purpose. It's also the hometown of Tisza Cipő, one of Hungary's most iconic footwear brands, and a town known today for its thermal spa, attracting wellness seekers from across the region. On a darker note, Martfű is also remembered for the chilling story of the "Martfű rem," one of Hungary's most infamous serial killers, adding a stark historical layer to an otherwise tranquil community. As part of our IOPOI 2025 project, we recently surveyed the town to both add and update POIs, ensuring that Martfű is ready to guide visitors, locals, and logistics services with precise, reliable navigation data. Martfű Mapping Summary • 87 POI edits in total • 15 newly created street infrastructure POIs • 41 newly added business POIs • 3 updated street infrastructure POIs • 25 updated business POIs From the spa to the shoe factory, the streets of Martfű now tell a clearer story, one that blends wellness, industry, and unique Hungarian history. And thanks to these updates, every route through the town is now more complete, more accurate, and more useful. #NNG #Martfű #POIMapping #SmartNavigation #OSM #UrbanHistory #HungarianDesign #TiszaCipő #SpaTown #MapUpdates #IOPOI2025 9,324 followers 3mo Mapping Kehidakustány: Spa, History, and Now Up-to-Date in OSM They say Zala is Hungary's Tuscany or Provence and when you stand among the rolling hills of Kehidakustány, it's not hard to see why. But this peaceful spa town, located in western Transdanubia, doesn't need comparisons to shine. It's a destination in its own right, offering thermal wellness, cultural heritage, and now, a refreshed map to match. As part of our ongoing POI enhancement efforts, we recently completed a field survey in Kehidakustány, focused on both adding and updating data in OSM. In a town where guest houses and hotels frequently change, it's crucial that navigation reflects what's truly there. And now it does.  Kehidakustány Mapping Summary • 106 POI edits total • 46 new street infrastructure points • 38 new business POIs • 1 updated street infrastructure • 18 updated business POIs But it's not just spas and accommodations we've made more visible. Kehidakustány is also home to the Deák Mansion, where Hungary's famous 19th-century statesman, Ferenc Deák, once lived. Today, it's a national monument worth the visit and now easier to find on the map. Whether travelers are arriving for wellness, history, or just a slow drive through the Zala hills, our updated navigation data ensures they can find what they came for. #NNG #OSM #Kehidakustány #POIMapping #SmartNavigation 9,324 followers 3mo Bridging Legacy Systems and Future Innovation in Navigation The journey from legacy navigation systems to modern, integrated solutions is both a technical and cultural shift. At NNG, we're transforming traditional maps into dynamic, automotive-grade navigation products that seamlessly integrate with today's connected vehicles.  We start with vast open-source data and apply advanced conversion processes that include rigorous cleaning, validation, and enrichment.  Our engineers address challenges like inconsistent topological data and missing attributes by leveraging third-party sources and developing proprietary algorithms. This approach not only ensures a robust and accurate navigation solution but also paves the way for continuous updates and feature enhancements. By bridging the gap between legacy systems and future-ready solutions, we're enabling a smoother, safer driving experience that adapts to the rapidly changing digital landscape. #LegacyToInnovation #NavigationTransformation #TechEvolution #NNGMaps #AutomotiveTech Dünya çapındaki milyonlarca gezgine katılın ve önemli yolculuklara çıkın.
