Airport services manual doc 9137 part 6

Airport services manual (doc 9137) part 1. Icao doc 9137 airport services manual part 6 control of obstacles. Airport services manual (doc 9137). Airport services manual (doc 9137) part 7.

The International Civil Aviation Organization (ICAO) has published an Airport Services Manual, which includes guidelines for controlling obstacles near airports. The manual, titled DOC 9137, provides information and recommendations to States on how to ensure uniform application of specifications related to obstacle control. This document is a part of the ICAO's Annex 14, which contains basic standards and recommendations for aerodromes. The Airport Services Manual (ASM) has nine parts: 1. Rescue and Fire Fighting 2. Pavement Surface Conditions 3. Wildlife Control and Reduction 4. Removal of Disabled Aircraft 5. Control of Obstacles (the current text) 6. Airport Emergency Planning 7. Airport Operational Services 8. Airport Maintenance Practices Additionally, the ICAO has published an Aerodrome Design Manual (ADM), which includes guidelines for designing and maintaining aerodromes. Some important points to note: * The ICAO recommends that States follow these guidelines to ensure safe and efficient airport operations. * The documents are protected by copyright, but can be accessed online or purchased in print format from the ICAO website. * The publication of these documents is not an endorsement or guarantee of their accuracy or completeness. **ICAO Documentation Bundle (Updated as of 2022)** * **Air Traffic Management**:.
