

STATEMENT

A motivated 3D Animator with over 4 years of industry experience across a variety of studios. A practical foundation in performing & production arts has helped train my eye for visual storytelling & movement. Since beginning my training in 2018, I've developed professional experience in both stylized & realistic keyframe animation styles, as well as with motion-capture, body & facial performance clean-up.

I'm endlessly inspired by the talented artists that make up our industry, & constantly strive to improve my workflows and elevate my skills to ensure I can be a worthwhile asset on any team.
