# AMNIO ARMOR

Dual Layer Amnio Patch

# Tissue Processing

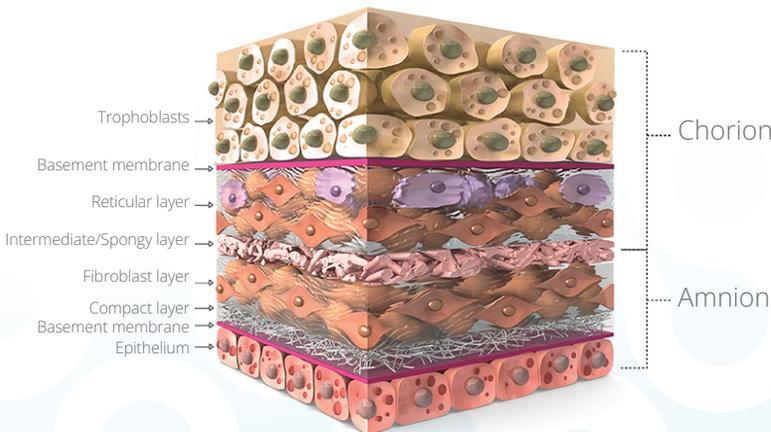

At AlexiGen maintains the highest standards in allograft tissue processing. Once a donor meets our stringent eligibility criteria, recovery specialists begin the allograft retrieval process.

The tissue is then meticulously processed in certified clean rooms by skilled technicians following strict, validated protocols.

Every step is designed to preserve biological integrity and ensure the highest quality, safety, and consistency of our allograft tissue.

**AmnioArmor® Dual Layer Amnion Patch is a dehydrated human amniotic membrane allograft derived from the submucosa of placental tissue. AmnioArmor® may be used as a wound covering for acute or chronic wounds, serving as a protective barrier.**

Supports the body's native healing in acute and chronic wounds

Helps maintain wound coverage and hydration

Retains naturally occurring components found in amniotic tissue

Easy to apply with or without glue or sutures

5-year shelf life under proper storage conditions

Stores at ambient temperature (15–30 °C)

Multiple size options

Reimbursable

Part Number	Description	Unit
AB-83011	AmnioArmor® Dual Layer Amnion Patch (1x1cm)	1
AB-83122	AmnioArmor® Dual Layer Amnion Patch (2x2cm)	4
AB-83223	AmnioArmor® Dual Layer Amnion Patch (2x3cm)	6
AB-83344	AmnioArmor® Dual Layer Amnion Patch (4x4cm)	16
AB-83446	AmnioArmor® Dual Layer Amnion Patch (4x6cm)	24
AB-83548	AmnioArmor® Dual Layer Amnion Patch (4x8cm)	32

## Relationships in Sync with Technology

We combine cutting-edge biologics with strong, positive relationships across our network of representatives and physicians.

Advanced technology with trusted partnerships sets AlexiGen apart in meeting patients' needs with the latest innovations in the biologics market.

## Our AlexiGen Difference

At AlexiGen BioTech, we are driven by a singular purpose: improving patient outcomes through product innovation.

Our commitment to excellence is reflected in every facet of our operations, from rigorous product development to exceptional client service.

We deliver high-quality biologics that meet the most stringent regulatory, statutory, and legislative standards.
