

Make An Impact During Childhood Cancer Awareness Month! Join the Fundraising Challenge!

If you recall, we first introduced you to 3 year old James in March 2023. James was diagnosed with Neuroblastoma in November 2022 and was treated at Comer Children's Hospital. In June 2024, at his first three month checkup scan, his doctors found a new lesion on his lung. He is currently undergoing treatment at Advocate Children's Hospital/Pediatric Oncology in Park Ridge, IL. He is undergoing chemotherapy and proton radiation for Relapsed Neuroblastoma.

His mom calls him "sunshine in human form," and his family feels incredibly lucky to share their days with him.

As we continue to honor and celebrate Super Jake grantees, like James, throughout childhood cancer awareness month, we are reminded of what matters most: **Finding cures and saving children.** There's no better way to show your support for a cause that unites us all than with a donation to our mission.

With a total of \$10,000 raised so far, any one time or monthly gift made between now and the last day of September will count toward our fundraising challenge goal!

Don't forget to ask your company if they match charity donations!
