Super Hero Grantees Spotlight

The mission of Super Jake Foundation is two-fold; fund research to cure this deadly disease and help these children and their families with the cost of treatments. We are delighted to introduce you to patients that we have been able to help recently due to your generosity.

Meet Jameson, one of our newest Super Jake Hero Grantees!

Jameson was diagnosed with high-risk neuroblastoma in early February of 2023, at only three years old.

Jameson loves to ride dirt bikes and spend time on his grandpa's boat. He has the dream of becoming Spider-Man once his chemotherapy (AKA superpowers) has gone through the central line.

Jameson is currently receiving chemotherapy treatment at the Children's Hospital in Milwaukee. His mother and father have both had to quit their jobs to accommodate this extensive treatment plan.

Jameson's mother and father are in need of financial assistance to help with travel expenses to and from the hospital, which is about three hours away from them, along with other bills. You can follow Jameson's treatment journey by checking out his mother Jordan's **Facebook**.

Meet Leif, one of our newest Super Jake Hero Grantees!

Leif is a beautiful three-year-old boy who was diagnosed with high-risk neuroblastoma in April of this year.

Leif is curious, brave, clever, introverted, strong-willed, and sweet. He loves model trains, fire trucks, painting, singing, and spending time with his younger brother, Nels.

Leif is currently undergoing extensive treatment, including having a stem cell transplant at Lurie Children's Hospital. His family would be grateful for any assistance to help pay for transportation and lodging expenses.
