

SAFETY INSTRUCTIONS

- ⚠ Please read the instructions carefully before use.
- ⚠ Do not disassemble or refit the product.
- ⚠ Press the touch sensor properly.
- ⚠ Handle with care during installation or moving.
- ⚠ Keep the mirror dry; moisture reduces the sensitivity of the product.
- ⚠ Turn off the power before cleaning. The surface of the mirror should be cleaned with glass cleaner; please make sure the mirror is completely dry before using it.
- ⚠ Turn off the power and avoid direct sunlight if not used or stored for a long period of time.
- ⚠ Keep out of children's reach.
- ⚠ Make sure that your charging device is adequate for the mirror voltage rating before using it.
- ⚠ Avoid exposure to extreme heat or fire to avoid the risk of an explosion.
- ⚠ Stop using the product immediately if abnormal conditions occur.
- ⚠ Electrical installation must be completed by a registered electrician only

* We reserve the right to any modifications of the product involving design and specification. All materials here are for your reference only and are subject to the products you receive. No further notice will be given of any technical parameters changed.

OPERATING INSTRUCTIONS

【ON/OFF】 Short press/tap on the light button to turn mirror on/off.

【Adjustable Colour Temperature】 Short press/tap the light button to adjust the colour temperatures between warm and cool light.

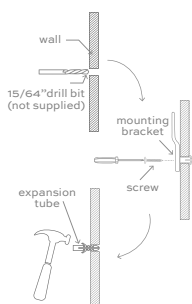

【Dimmable Brightness】 Long hold press on the light button to adjust the brightness of the mirror light in any of the colour temperature settings.

【Memory Function】 The mirror will remain in the last used state, without the need to adjust the brightness.

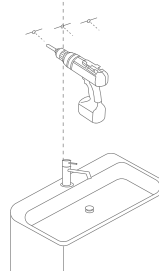

INSTALLATION METHOD

① Measure, mark and drill the holes for the mounting bracket so that they are centered and level on the wall.

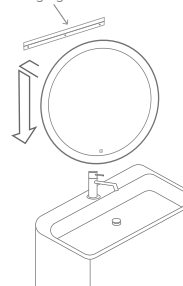

③ Mirror can now be hung on hanging cleat and wired to power source.

hanging cleat

② Insert expansion tubes into drill holes before installing the mounting bracket by screwing into place.

*Electrical installation must be completed by a registered electrician only
