TERMS

Our goal is to be the most registrar-friendly Registry in the industry. We plan to be your Partner for the long term. We trust that you will do your best to help us promote it.com domain names, and we will discount your price from the date you sign this Agreement until the end of the promotion. Based on that understanding, we can engage from time to time in promotional activities for it.com domains.

Discount Per 1st Year Domain Registration: USD 21.50

The discount brings the effective 1st-year wholesale price to \$3.50. You can decide your retail price.

Requirements:

Discounts will apply to domains registered from the date you sign up until the end of the Promotion Term. The promotion applies only to the first year of multi-year registrations. Renewals and Transfers are billed as the standard annual wholesale fee of \$25. The discount does not apply to premium names.

Other Conditions

The Partner shall monitor registrations made during the promotion period to ensure there are no abusive registrations, including but not limited to the following:

- Unusually high volumes of registrations from a single user.
- Extraordinarily high volumes of registrations containing patterns of random strings.
- Registrations detected by a third party as potentially being used for spam, malware, or other purposes that contravene the it.com ToS and Abuse Policy. If the Registry detects such usage and the Partner takes no corrective action, the Registry reserves the right to lock any such domains, terminate the Agreement, or retroactively apply standard pricing.

CONFIDENTIALITY

We ask that you keep this discount and any special arrangements confidential.

LIMITATION OF LIABILITY

To the extent permitted by mandatory law, and except for indemnification and confidentiality obligations, either party shall be liable only if gross negligence or willful misconduct is proven. In no event shall either party be held liable for any special, indirect, consequential, punitive, exemplary, or incidental damages or loss of profits or business interruption, whether contractual, based on tort (including negligence) or otherwise arising, resulting from or related to registration or use of a domain name or the use of the registry system or registry web site, even if it has been advised of the possibility of such loss or damages, including but not limited to decisions taken by the party to register or not to register a domain name based on the applicable rights protection mechanisms and processes. To the extent allowed under mandatory law, the parties' liability for damages shall, in any case, be limited to the fees charged by the Registry to the registrar of record in relation to the domain name transaction concerned.

General Terms

This Agreement does not create, and nothing contained in it will be deemed to establish, a joint venture between the parties or the relationship of employer-employee, partners, principal-agent, or the like. Any and all disputes arising out of or in connection with this Agreement will be finally settled in London by arbitration.
