(Detail Informationen für Website Upload):

trash to tresures thema

Story of the Instrument:

#### Trash to Treasures

This instrument is part of a collaborative charity project with EB Impact (ebimpact.org).

Plastic waste was collected from the waters surrounding Singapore, melted down, and transformed into a solid toneplate—the core acoustic element of this guitar.

Beyond its unique aesthetic, the project carries a deeper message:

Our oceans are in crisis. This guitar is a call for awareness, respect, and responsibility—towards the sea, our planet, and the way we consume.

Trash can become treasure—if we choose to act.
