Name of the Instrument:	The Widowmaker
Special Story of the Instrument:	This Cars & Guitars project is inspired by my favorite childhood slot car: The Widowmaker. Back then, it was simply the fastest slot car I owned, winning most of my races. Only decades later did I understand that it represented one of the most legendary Porsches of all time. After finally driving the original on a racetrack, I understood not only ist looks, but ist attitude. Built without compromise, it demands respect. It doesn't forgive hesitation. It rewards courage, precision, and instinct. Like the legendary machine that inspired it, this instrument was never meant for everyone. It exists for those who understand that beauty can be dangerous, that control is earned, and that true freedom always comes with risk. Ist sound is a wild animal. You don't simply play it. You have to tame it, learn ist power, and finally ride it, just like the machine that inspired it.
