

Site Select + Salt

Overview

We've taken our Site Select blend which contains a broad blend of top performing Kentucky Bluegrass and Fine Fescue cultivars and we've added two salt tolerant varieties. The broad range of varieties will allow varieties and cultivars that are best suited for the site to thrive.

Seed blend carefully selected for salt tolerance and to meet TWCA certification

Benefits

- TWCA certified blend
- Improved salt tolerance over conventional sod blends
- Excellent drought tolerance
- Up to 50% reduced water consumption
- Up to 50% reduced fertilizer requirements
- Ability to thrive under varying soil conditions
- Low maintenance requirements after establishment
- Excellent shade tolerance
- Wear tolerant

Seed Mixture

15% Fults Alkaligrass
 10% Celestial Creeping Fescue
 10% Big Horn Sheep Fescue
 10% Enchantment Chewing Fescue
 10% Nanook Hard Fescue
 10% Full Moon Bluegrass
